

Assessment 6

Manual Testing:

My plan to test the game is to play it several times and figure out any bugs or errors.

1.

Title: See All Bots button

Description: A user should be able to click the see all bots button and they should appear.

Precondition: none.

Assumption: all the bots should appear on the website.

Test Steps:

- Load the page
- Click the see all bots button
- Bots show up

Result: Bots did not show up.

2.

Title: Win or Lose Count

Description: Checking to see if the win or lose counts are accurate.

Precondition: Choose bots and duel.

Assumption: If I win it should give me add 1 to wins, if I lose it should add 1 to losses.

Test Steps:

- Draw the bots
- Choose your bots to duel
- Click Duel and let them duel.
- Check to see if adds 1 to win or loss was accurate.

Result: If I lost it did add the 1 to the losses but not for the wins.
